Leaders in project management

A Master Construction WA proudly WA owned and directed by Gareth Thornton

Gareth Thornton

Director

In 2012 Gareth's experience and enthusiasm lead him to start up a new carpentry company in Perth WA.

With grass roots experience and a hand full of talented trade qualified carpenters, Gareth has grown a highly successful business and he is proud to be the sole Director, Owner and Project Manager.

Gareth's commitment to meet and exceed client's expectations is recognized throughout Perth and with 20 years experience he has demonstrated his knowledge and exceptional attention to detail through his quality workmanship.

A Master Construction (WA) Pty Ltd is a strong, reliable, ethical business with great staff that will work hard to provide exceptional results.

Testimonials

MARISSA WILLIAMS

Gareth and the team from A Master Construction did a brilliant job of our planters in alfresco dining area for our restaurant. Very helpful with design and adjusting to stay within budget – no fuss installs and friendly assistance. Beautiful job – would recommend them. Thanks guys!

HENRI K

Good friendly service. Will give you a 110 percent job done quick and fair rate. Catches next time

MATT NORTON

The name says it all A master Construction, masters in the work they perform. Had Gareth and the team build me a Deck and it turned out fabulous. very competitive on price and nothing was too much hassle. highly recommend them for all decking or carpentry needs.

SHAUN DONALDSON

Excellent service and great workmanship. I got a deck from Gareth and his team, nothing was too much for these guys, would 100% recommend.

LINDA CAPORN

We have had two jobs completed and we were very happy with both. Would highly recommend carpentry expertise to others. It is very rare to find carpenters that are honest, reliable and clean up after themselves.

CAROLYN NOLAN

Amazing service from start to finish. Very professional and friendly team. I would most definitely use them again.

CLETUS D' CUNHA

Thank you A Master for an awesome work on my projects. Highly recommend, quality workmanship and very competitively priced. Will definitely see you on future works.

CAROLINE F

Fantastic work – Owen and Garath did a quality job and fixed all the last guys bad shortcuts. Floor looks fabulous! Highly recommended.

STEPHEN SMITH

Awesome job done by Gareth and his team. Quality job done and fair pricing.

JOE MCMANUS

Thank you A Master on a job well done, our new deck is looking brilliant.

ANDREW LEE

Great job Cedar lining completed before quoted and excellent finished and cleaned up after job was done was very happy

KIERAN PLUMB

Highly recommend.

LIAM LAMBERT

Could not be more happier with the professional work done by Gareth an his team at a master construction

ALEXANDRA WHILEY

Awesome work guys

Carpentry on a Colossal Scale & 360-Degree Views of the Bay –
Bunbury's latest striking structure

Koombana Bay Lookout Tower

A Master Construction WA has worked meticulously with BGC Construction, Plan E and associated trades to deliver a stunning unique center piece attraction for the City of Bunbury.

Carpentry on this scale demands commitment and quality workmanship from the ground crew up. An abundance of time and effort has been poured into this project from day one and the person responsible is Gareth Thornton owner and director of A Master Construction WA.

A Master Construction WA's best attributes have been demonstrated and proven. This project has tackled challenging carpentry techniques and supports the beauty of

working with natural materials that require care, respect and skilled workmanship.

Sourcing quality sustainable timber and selecting reclaimed hardwood is our priority. Its time consuming however when the finish result is faultless it is all worthwhile.

The unassuming technique of matching natural timber with selected oils and colour tones to draw out the timber's natural colour and beauty was key.

A Master Construction WA specially selected oils and colour tone combinations which was critical to yielding this amazing result.

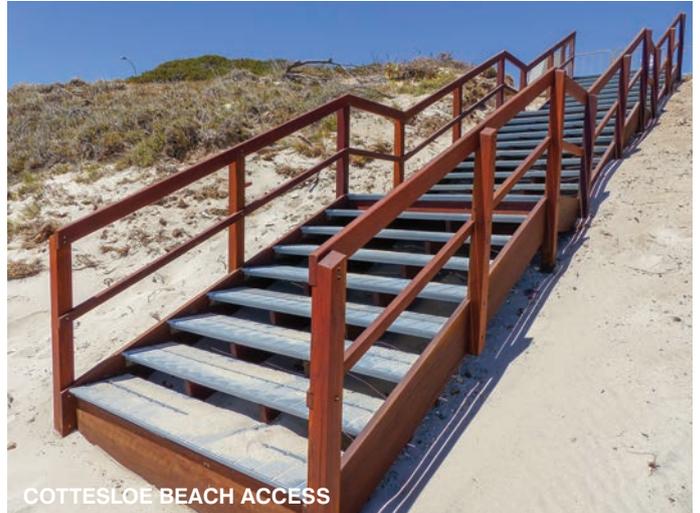

A Master Construction WA's samples assisted the architect see the full potential of the natural hardwood and brought out the beautiful features the timber had to offer.

The Lookout Tower is visually remarkable by day and by night the tower is gilded with LED lights.

The new playground, boardwalks, environmental education center and Lookout Tower that stands 15 metres above sea-level giving 360-degree views of the city is not only an infrastructure investment, it's a legacy and stepping stone for future investment in the City of Bunbury's development.
